

IP-ASSIST patent partners

PROFILE

IP-ASSIST patent partners is a small boutique patent law firm established in 2013 at Sapporo-shi, Hokkaido.

We provide filing services, prosecuting services and right maintenance services in the field of Patent law and Trademark law in Japan and foreign countries. Regarding patents, we provide services focused on the technical field of life science, biotechnology, pharmaceuticals and foods and beverages. Our major clients are Japanese universities, public research laboratories and private small companies.
